"I Believe I'll Kill Myself," Said Youth.

And He Did It With an Old Rusty

Pistol—Other News

Notes.

Trenton, Ky., Oct. 10.—William Barker, a 15-year-old colored boy who lived on Mr. R. L. Lawson's farm, three miles east of this place, killed himself last Saturday. He had been snapping an old pistol at three companions and remarked, "I believe I'll kill myself." Putting the muzzle of the weapon in his mouth he again pulled the trigger and this time the pistol was discharged and he fell dead, the ball having passed nearly through his head. His chestnut gelding was found and the verdict of the jury was "accidental killing."

D. Chesnut has let the contract for the Dairy Planning Mill and Building Company, of Hopkinsville, for the erection of a \$5,000 residence. The building will be a two-story frame structure and will be ready for occupancy by January 1 next.

The contract for maintaining five hundred yards of North Main street has been let to Mr. W. D. Vaughan, of Hopkinsville, and the work is in progress. The price is \$1,500.

Mr. F. P. Bowes left this morning for Minneap. to attend the annual convention of millers of the United States.

The Presidents of The Court

House Combined have

had enough

and are allowed to do what they

want to do.

**IT-ILLION MEDICINE**

They have Drawn From The Pub-

lic Treasury More Than

\$100,000—Changes

Required

Needed.

John Feland also has been given

the scraps of pie that were left after

the second or third table. He has

been allowed to hold a few odd jobs

as "appointment," and even now

is drawing \$200 or \$300 a year as

secretary of the asylum board.

John has gotten so little that it is

almost cruel to count it, but for the

purposes of this history we will

call it \$1,000. Perhaps if he should

break into the Senate and save the

King, they might let him have

the postoffice as his reward next

year.

But we owe Tom Williamson an

apology. We came very near for-

getting him. It is true Tom is only

an oligarchy, the close corporation

of office-holders who are seeking to

perpetuate themselves for life in

public positions that belong to the

people. They have fattened on the

treasury to an extent that is amaz-

ing. When the merits and capacity

of the favored class are consider-

ed, it is evident that the public

are not touched for as absolutely

correct, for no one knows, but the

Ringers themselves just how well

their jobs have paid them. But

they will serve in a measure to let

the people know what it is costing

them to keep a set of inefficient and

unworthy men in office, when they

could have good and capable officers

by demanding them at the polls.

To take them one at a time, the

following itemized estimates of the

salaries they have drawn are given:

W. T. Fowler, who wants to be

county judge, is perhaps the best

man on the ticket, but that is say-

ing but little in his favor. He hit

the town a few years ago with an

inordinate thirst for office and im-

mediately began running about ev-

erything from congress down. He im-

mediately made a standing as Master

Commissioner for two years and

succeeded in feathering his nest to

the extent of \$1,000 or \$5,000 a year.

Other Anderson family attorney

inherited an office-seeking mania.

The Anderson family has been

a burden on the public treasury

since away back in 1896, when

Judge Winslow beat the head of the

dynasty for county judge, and fore-

ed him to be content with the next

best things in sight, magistrate

and city councilman. Then this son

brought himself into the arena and

succeeded in getting himself elected

county attorney 7 years ago, and it

is estimated that he has taken paid

about \$17,500 for the part he has

taken in obstructing the court

house ring.

Now we come to the leaders of

the flock. John P. Powsse by a

single vote, and that the vote of a

man who lived in another county,

got a hold on the public treasury 11

years ago and has been sucking it

ever since, and it is said \$4,000 a

year is a low estimate of what he

has gotten out of the country.

As I said, back to this in this

speeches while running against

him, before I was struck by

the King's pile driver last Februa-

ry, he has climbed to a dizzy

height of popularity. He lives on the

very pinnacle of Quality Hill, in a

mansion that people stop in the

streets to look at when they pass.

Even the pavement is made of

passsed brick ordinary which is

too rough for the wealthy County

Clerk to walk upon on his way to

the carriage at his gates in which

he rides to his daily toil. The

estimates make up \$44,000, but ap-

proximately \$50,000 would be nearer the

amount. Mr. Powsse has been a pres-

ident of the local bank and a mem-

ber of the local bar association.

Miss Kurtie Mcgrath Superintendant

of Schools, has been in office 7

years, the salary, averaging \$1,500,

making about \$10,500, she has been

paid.

John Boyd has been on the

pay roll for a long time. He

was first deputy sheriff and

sheriff one term, during which one

of his deputies created a scandal

in his office that caused the defeat

of the Republican ticket at the fol-

lowing election. Recently he has

been a deputy sheriff again.

All told his salaries have probably ag-

gregated up about \$14,000, more like

\$15,000, but he has enjoyed the spe-

cial privilege of being in the same

ticket as his wife.

Now we come to Hon. Jas. T. F.

Rogers. I have already allowed

the King to pick up a few bits

and crumbs. They let him go to

the bar and he has

been a member of the bar association.
